Cutting parts

The seam allowances (1cm) are included.

Cut a piece 36 cm wide by 90 cm long from the outer fabric.
Do the same with the liner.

Also cut a 43 cm x 22 cm coupon from the outer fabric which will be used for the inside pocket (this dimension is personal, you can decide to make the inside pocket larger or smaller, to put two pockets...)

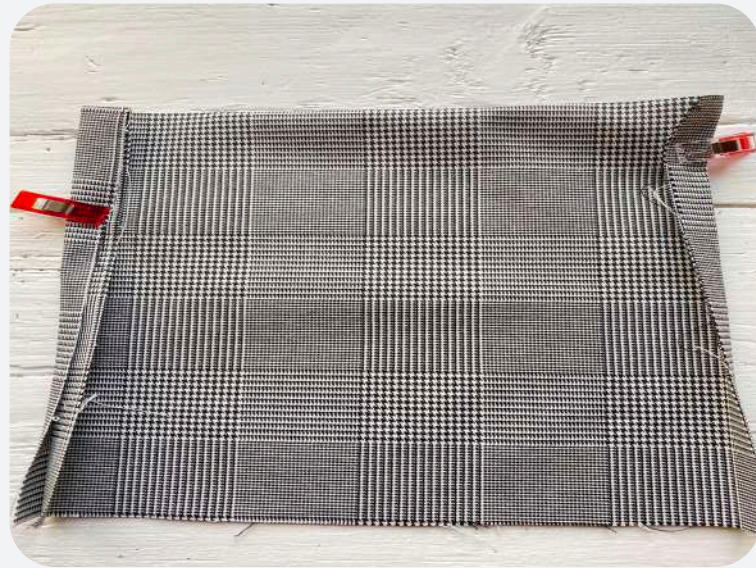

Cut two 10 cm pieces in the fancy ribbon and cut the lurex cord in half.

1

First step

We will start with the pocket.

Fold the 43 x 22 coupon in half and tuck in one centimeter on the right and left sides only.

Fold the lining fabric of the bag wrong side up and position the pocket (wrong side towards you) 10 cm below the folded fabric (the folded side, not the “open” side)
