Licence of use

You will receive a usage licence for each purchased product (pattern / embroidery file / ebook).

Commercial use

All self-made products from our patterns/embroidery files/e-books may be sold on a small scale (50 pieces). However, we insist that we are named as the manufacturer of the pattern/embroidery file/e-book with our name "TOSCAminni Schnittmanufaktur" as well as our internet address: www.toscaminni.de.

The customer may only edit and use the contents beyond the scope stated with the consent of the respective rights holder. If you have any questions, please contact us at info@toscaminni.de.

Copyright

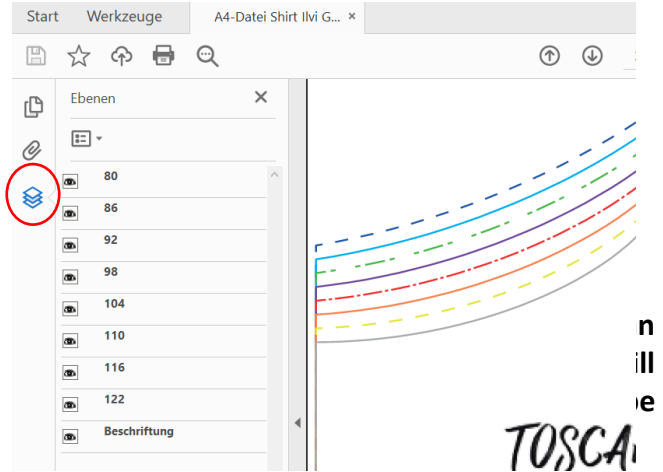

All products from our online shop have been designed and created by us. Our patterns / embroidery file / ebook are protected by copyright and may not be sold, given away, copied or altered.

We own the sole copyright unless expressly stated.

Cut on layers

Each size is saved on its own layer. This makes it possible to show only the sizes you actually want to print. For this function you need Acrobat Reader, which you can download free of charge from the Internet.

Click on the layer symbol in Acrobat Reader and show or hide sizes as you wish.

Lines are drawn around the sheets with rows and pages, so you can use these as a guide when gluing them together.

Tips for beamer users:

Improve the contrast when projecting on dark materials by using the following setting:

File / Edit / Settings / Accessibility (or Shortcut Ctrl+K

activate the check mark "Replace document colours

- deactivate the checkmark "Change colour of black text or vector graphics only".

Find the right size

1 Bust measurement:

The bust is measured horizontally around the body. The tape measure is placed around the highest part of the chest and over the shoulder blades/back.

2 Waist measurement:

The tape measure is placed loosely around the waist.

3 Hip measurement:

The hip is measured around the strongest point

4 Arm length:

The arm length is measured with one arm slightly bent, over the elbow to the wrist

5 Shoulder width:

From the base of the neck to the ball of the arm

6 Back length:

Measure from the base of the neck to the waist

7 Side length:

Measure the length from the waist to the floor

Decisive for the size selection are bust size and hip size.

Ladies measurement chart

Size	34	36	38	40	42	44	46	48	50	52	54
Bust size	80	84	88	92	96	100	104	110	116	122	128
Hip size	86	90	94	98	102	106	110	116	122	128	134

Information on fit / work preparation

With an ebook or a paper pattern, no matter what brand, you buy a ready-to-wear pattern. This means that you have to adapt your own measurements to this cutting system.

The blazer is figure-hugging and fitted. Compare your personal measurements with the paper cut and adjust it. (Length - sleeves - bust - hip size).

You can lengthen or shorten the blazer downwards by dividing the cut in the lower third and moving it apart or together by the difference you want to change. Then adjust the lines again.

Set the sewing machine to "jersey compatible":

Sewing with the overlock

The easiest way to sew is with an overlock. Make sure you set your overlock differential correctly to prevent the jersey from curling.

A great [>>Video](#) by the way, you can find this at Makerist

If you are sewing with a sewing machine, we recommend that you first sew the seams with a small backstitch (length 2-2.5) and then overcast both layers with an overlock stitch.

Sewing with the sewing machine

There are also sewing machine feet that have a small cutter built in and also cut the fringe. For jersey you should use an elastic stitch. There are many elastic stitches available with the sewing machine.

Make sure you use the right needles, there are special needles for jersey.

If you don't have an overlock, you can overcast the fabric with a zigzag stitch.

Your sewing machine probably has stitches like this or similar. The triple zigzag stitch is great for elastic hems and for sewing underwear - it is very decorative and durable with the right thread.

Do you know the top feed foot?

Top feed feet are popular for sewing velvet, plaid or striped fabrics so nothing shifts.

What may not be so well known, it is also great for jersey. With a top feed foot, both the bottom layer of fabric and the second layer on top are fed evenly and so the jersey does not curl.

We start with the back
Sew the centre
back seam (lay the fabric right sides
together).

Sew the back side pieces to the back
centre piece.

Sew the second side piece to the
centre back piece as well.

Side front piece and
centre front piece
Sew

- First stitch the shoulder seams.
- Place the cut collar pieces right sides together. Topstitch the centre back seam.
- Trim the seam allowances
- Cut in at the corner just to the seam.
- Press seams flat

Congratulations, you did it and you can be proud of yourself!

We would be pleased if you mark your works so that we can admire them.
