Amelie's Dress

It's a romantic dress with a vintage touch. It is designed with extra width so it can be put on without any closure. With the ribbons the dress can be draped to fit. The fake-wrapped neckline and various sleeve- and skirt options will make every piece unique!
It can be sewn in 3 different skirt lengths. Various Sleeve options are available

What About the Sizing?

I stick to the bust circumference. Which means a bust circumference of 38 inches correlates to the size 38.

It is designed with extra width so no buttons or zippers are needed.
