

Sewing instructions

- 1 - Sewing the inseam (all versions)

Place the front piece (of the one-piece swimsuit, the trikini, the shorts or the bikini bottom) right side up, then place the corresponding back on top of it, wrong side up and finally the inseam wrong side up. (1)

Pin all three layers together. (2)

Stitch them all together (you can baste them beforehand if you find it easier). (3)

Open the front and the back pieces, flip the lining towards the front piece, wrong sides together, and baste them at the thighs to hold them together and make the next steps easier. (4)
