

Sewing instructions

- 1 - Sewing the pockets

If you don't sew pockets, go to [step 18 on page 10](#).

Fold the pocket bands in half widthwise, wrong sides together, and iron. Right sides together, pin the bands centered on the pocket opening of the fronts, opening edges of the bands along the pocket opening. (1)

Stitch the bands starting and ending 1 cm - 3/8 " from their short sides. (2)

Notch the opening of the pockets of the front diagonally from the inner angles to the ends of the previous seam. Only notch the fronts, not the bands. (3)

Pin the pockets to the fronts, right sides together, at the opening of the pockets (place the pins on the side of the front).

The band is sandwiched between the two layers. (4)
