- ♥ Scissor for paper
- ♥ Paper for printer

Everything is a can, nothing a must...Just see what you have in stock...

## Size table

| Size international  | XS/S                     | M/L                         | XL/XXL                       |
|---------------------|--------------------------|-----------------------------|------------------------------|
| Size DE             | 34 - 38                  | 40 - 46                     | 48 - 54                      |
| Chest circumference | 74-89 cm<br>29,1-35 inch | 90-107 cm<br>35,4-42,1 inch | 108-139 cm<br>42,5-54,7 inch |

With Nana Cape the measures of chest circumference are total enough, because the cape fits casually and flatters easy the figure. Please adhere to the fabric recommendations. Not stretchy material is not suitable.

## Your required materials...

All kinds of stretchy material with some stand as knit wear, wool knit wear, fleece knitwear, sweat, felt knitwear, interlock, cotton jersey, jersey, viscose/ elastane, microfiber jersey, nicki, panne velvet and so on are usable. I advise to sew a sample with similar material. All fabrics are available in different width and compositions, but mostly in 140 cm width. We always state here the length at about 140 cm, you require. Let advise yourself extensively at a specialist trade on which and how much fabric you require. Or take your completed cutting parts and put them on the fabric at the specialist trade. All seam allowances are already included.
