# SIZE CHART

## EASY SIZE SELECTION

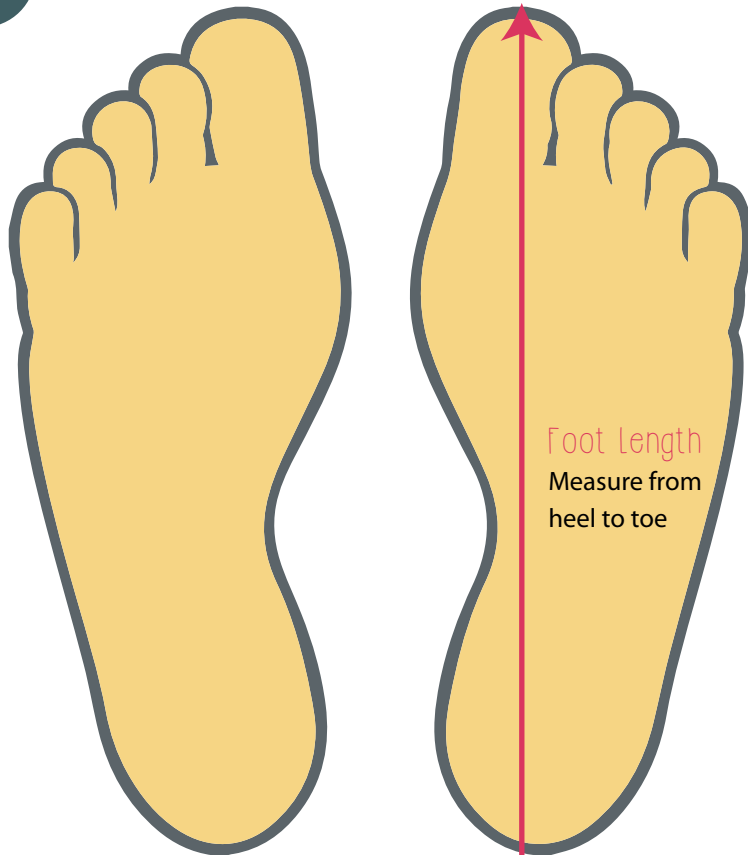

Print off pages 19 + 20 to have a ruler to select the slipper size without needing to measure the foot.

If in between sizes it is recommended to size up unless you want a more snug fitting slipper.

If you want to wear your slippers with extra thick and fuzzy socks, be sure to measure while wearing them.

## WHERE TO MEASURE

If choosing to measure with a tape measure instead of using the printable ruler, the most accurate sizing will be with cm. Inches are rounded to the nearest 0.25".

# LIST OF SUPPLIES NEEDED

## RECOMMENDED FABRICS

Medium to heavy weight woven fabric for the outer.  
Similar fabric for the lining or use a fleece or flannel for cozier slipper.  
Bottoms can be made from grippy dots, denim, felt, leather, etc.

## OTHER NOTIONS NEEDED

1/4" elastic.  
Buttons for eyes (optional - can you felt instead)  
Felt or knit scraps for animal features  
Pompoms (optional) for back of slippers

## ABOUT THE FABRIC REQUIREMENTS

The chart of fabric requirements below is based off of 60" (150cm) wide bolts of fabric.

It also does not take into account fabric shrinkage or fabrics with directional prints.

## PRE-WASHING YOUR FABRIC

It is very important to pre-wash your fabric how you will wash it once you have sewn the garment.

Pre-washing your fabric will prevent the garment from shrinking after you have sewn it.

## FABRIC REQUIREMENTS

Size	All Sizes
Outer Fabric	1/4 yard (25cm)
Lining Fabric	1/4 yard (25cm)
Animal Faces	Non-fraying fabric scraps or a sheet of felt from craft store in various colours
