

eBook Mimi knit coat

Thank you very much for choosing an eBook from
first lounge berlin® :)

first lounge berlin® eBooks are characterised by the fact that they are very extensively illustrated and described.

All products have been developed and sewn by hand with great passion. All cuts are developed exclusively by us and are very easy to follow, so that even sewing beginners can have 100% sewing fun. All seam allowances are always included in our cut samples. For the sake of the environment, the DIN A4 cuts are designed ✿ as reduced as possible. In large format, on the other hand, the sheet is filled with the cuts if there is enough space. This way we can save resources and protect the environment! ♥

You find our shop at firstloungeberlin.com

Have fun designing and reworking! :)

♥♥ ✂ Many thanks again to my sample sewers Gabi and Ina.
✂ And big thanks to my darling, who always supports me lovingly, wherever he can! ♥♥

♥♥ The products made from our cuts **may be used privately AND commercially**. The commercial sale of the manufactured products is permitted without restrictions within the scope of a small-scale business of individual pieces and small series (no mass production) - **ONLY** by mentioning our name e.g. "Patternmaking or cut by firstloungeberlin". The eBooks and the cuts must not be reproduced, sold, copied, passed on, photographed or published in any way!

From a constant passion to change, reshape and sew clothes, crochet accessories and knit sweaters has become a calling. School education was only a question of time...

My label **firstloungeberlin®** represents freedom and a positive attitude towards life in combination with creativity and passion. What once started in a remote room in Prenzl' Berg, grew into a small, bright clothing lounge with a lot of sensitivity and love for detail, with an aversion to the boring textile chain markets.

The look is unconventional, super comfortable, practical and uncomplicated. My creative dedication and the urge to develop further drove me out into the world where I could cultivate my curiosity and be inspired :)

I have packed my experience, passion and all the tried and tested cuts into my suitcase and little by little I am creating all the most beloved surprises from old and new times, which you can bring home to your sewing machines and make them with lots of fun and joy.♡

eBooks by **firstloungeberlin®** are unique, extensive, very detailed, uncomplicated & easy to implement. Even sewing beginners will get fast and great results!

You can do it too, so design, sew✂ & wear what you like!

Sincerely yours, Ina Schille

...before you start sewing - *Your checklist*

Important! Please read the entire manual first!

Tools you need in order to sew:

- ♡ Sewing machine
- ♡ Iron
- ♡ Ironing cloth
- ♡ Fabric cloth
