

## *Amanda Jane Textiles*

13 Fold length-ways down the centre and press again.

14 Top stitch down both long edges 1/8" (3mm) from each side.

15 Tuck an end of the handle under the cuff you created in step 11, exactly over the vertical seam in the basket. Pin.

16 Tuck the opposite end of the handle under the cuff on the opposite side of the basket. Pin.

18 Stitch a matching button on one side through all the layers: the handle, the cuff, the tucked-under section of handle and the basket. This makes the handle secure so the basket can be hung up as a decoration or placed on a door handle. Repeat at the other end of the handle.

19 Fill the basket with small chocolate eggs.

I hope you have enjoyed using this pattern.
