

Before you Begin:

Assembling PDF pattern:

- Print pattern pieces at 100% scale.
- Assemble pages, overlapping to meet pattern lines. (Finished pattern will be 2 X 6 pages placed down in Landscape).
- Tape pages together.
- Cut out pattern pieces.

Pieces needed for Unicorn:

- 4 Hood Side pieces (2 exterior fabric, 2 lining)
- 4 Hood Back pieces (2 exterior fabric, 2 lining)
- 2 Pockets
- 2 Ear pieces cut out of outer ear fabric
- 2 Ear pieces cut out of inner ear fabric
- 4 Ear pieces cut out of interfacing
- 3 Mane pieces cut out of same or varied colors

Pieces needed for Dinosaur:

- 4 Hood Side pieces (2 exterior fabric, 2 lining)
- 4 Hood Back pieces (2 exterior fabric, 2 lining)
- 2 Pockets
- 2 of each Dino Spike
- 2 of each Dino Spike out of interfacing

*Transfer all placement lines to fabric pieces.

Fabric Key: Right Side Wrong Side

Seam allowance: 1/2 in. (1.3 cm)

Lining Layout (Unicorn & Dinosaur):

Step 1

Flip the top of the pockets down 1 in. (2.5 cm).
Pin and sew 3/4 in. (2 cm) from folded edge.

**Step 2**

With right sides facing up, line up Pockets to the bottom of Hood Side Pieces. Baste around outer edges to hold in place.

**Step 3 (Unicorn Ears, Dino hat skip to step 13)**

Iron or baste on interfacing pieces to wrong side of all 4 Ear pieces.

Place inner Ears on outer Ears with right sides together.

Pin and sew around top edges, leaving bottom open.

**Step 4 (Ears Continued)**

Cut notches in seam allowance. Be careful not to cut stitching.

Flip right side out.

Step 8 (Mane)

Get out your Mane pieces. You will now be cutting strands of hair into them.

Carefully cut strips with scissors, or rotary blade, in each Mane piece every 1/4 in (6mm), leaving 1/2 in. (1.3cm) of the straight edge in-tact.

Step 9 (Mane Continued)

With one hand holding the straight edge, pinch each strand with the other hand and pull, sliding to the end. This will stretch, thin, and slightly curl each 1/4 in. (6mm) strip.
