

Amanda Jane Textiles

7 Repeat step 3 to 6, but this time place a 'Farne Islands' square right side (printed side) facing a 'Beach Stripe' square.

Pin these together down the right-hand edge with pins inserted at right-angles to the edge.

8 Place the piece made in step 7 right sides together on top of the piece made in step 3. Insert a pin through the point on the edge where the two vertical seams meet up. The join will be less bulky if one set of seam allowances is pressed in one direction and the second set in the other direction.

9 If you put two additional pins in the seam allowances of the two pieces you are joining (as shown), it will help to keep them stable so you end up with a neat join on the right side of the work.

Insert pins at right angles all along this edge.

10 Make sure that both the 'Farne Island' squares are the right way up and the 'Beach Stripe' pieces are vertical. Stitch on the machine with a $\frac{1}{4}$ " (6mm) seam. This block is for row 2 on the left-hand side of the quilt.

Make one more block exactly like this for row 6 (on the right-hand side of the quilt).

11 Now make two more blocks by the same method but with the squares in the block the other way round as shown in the photo.

One of these blocks will go in row 2 on the right-hand side of the quilt and the other block in row 6 on the left-hand side.

Press well. Set these four blocks to one side.
