

Sewing instructions

- 1 - Sewing the frills at the opening of the pockets

For a version without pockets, go to [step 11 page 9](#).

For a version with pockets without frills, go to [step 5 page 8](#).

Fold the frills in half, **wrong sides together**, and sew a line of gathering thread 0.5 cm from the rounded edge. Place a pin at the middle of the rounded edge of the frills and another pin at the middle of the opening edge of the pocket on the front piece. (1)

Pin the frills on the opening edge of the pocket, right sides together, by matching the two pins previously placed. Then pin the ends of the frills on the ends of the opening edge of the pocket. (2)

Pull on the gathering thread to reduce the frills at the length of the opening edge of the pocket. Carefully distribute the gathers and pin the rest of the frills. (3)

Sew 1 cm from the edge and remove the gathering thread. Repeat these steps for the second frills. (4)
