## MIMITO CROWN

REVERSIBLE PARTY CROWN  
FOR KIDS AND ADULTS  
LEVEL: BEGINNER

@ateliermimito #crownmimito

The MIMITO Crown is a one size fits all pattern and is suitable for both kids and adults. With its timeless design, this pattern is reversible and completely seamless. The tutorial below will show you how quick and easy it is to make along with suggestions for personalisation.

## **RECOMMENDED FABRICS**

All fabrics are suitable for this pattern. Avoid fabrics that are too thick and too stiff.

If your fabric is lightweight and thin, it is recommended to use interfacing or wadding.

This pattern is perfect for any embroidery design you may have in mind.

If you are not sure which fabric to use, look up the hashtag [#crownmimito](#) on Instagram for inspiration.

## **FABRIC USAGE**

Less than 1/4m is all you need for this pattern depending on your choice of inner lining. This project is great to use any remnant pieces of fabrics you may have in your stash.

**Please note:** Make sure your fabric is washed before cutting.

## **NOTIONS**

- Fabric
- Matching threads
- Ribbons
- Pom-poms (optional)

## **PDF SEWING PATTERN**

This pattern contains a Print At Home file which can be printed at home with any standard printer at scale 100%. It contains 3 pages that you need to assemble by cutting the margins and taping the pages together following the numbers indicated on each page. This file suits both A4 and US Letter printers.

## **SEAM ALLOWANCES**

In this tutorial, we are using a 0.7 cm or 1/4 inch seam allowance and is already included on the pattern.

## **GLOSSARY**

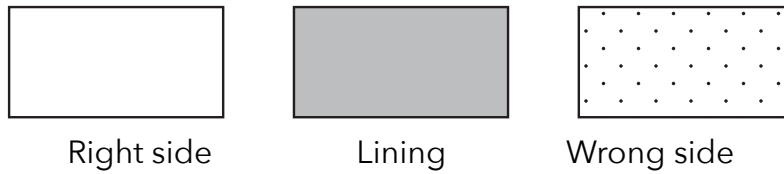

- Right and wrong side of the fabric: The right side is the side that shows on the outside of the garment and the wrong side will be on the inside. The following tutorial shows the wrong side of fabric with dots and the right side of fabric in white.
- Seam allowance: The distance between the line of stitching and the raw edge.
