© ATELIER MIMITO 2023
This pattern is for personal use only.
It is not to be used for commercial purposes.

Atelier MIMITO capsule collection is made of timeless and durable designs for children to grow into so you don't have to change wardrobe every few months.

The NINO pattern allows you to make harem style shorts and pants with an elastic waist and french seam finishes for durability.

The design is made so the child can move comfortably and is also cloth nappy friendly with its oversize fit at the hip.

RECOMMENDED FABRICS

Mid-weight to heavy-weight linen, cotton twill, silk noil, double gauze, cotton flannel, flannelette, wool suiting fabrics and any soft, natural woven non-stretch fabrics with a good drape.

If you are not sure which fabric to use, look up the hashtag [#ninomimito](#) on Instagram for inspiration.

FABRIC USAGE AND ELASTIC MEASUREMENT

Please note: On this particular pattern, it is possible to cut on either the grainline or the cross-grain. It doesn't effect the construction and it reduces fabric usage significantly.

110cm wide (45in)	0 to 6M	6 to 18M	18 to 36Y	3 to 5Y
Shorts	55cm / 21.5in	55cm / 21.5in	60cm / 23.5in	60cm / 23.5in
Pants	60cm / 23.5in	60cm / 23.5in	65cm / 25.5in	75cm / 30in
Elastic	42cm / 16.5in	44cm / 17.5in	46cm / 18in	48cm / 19in

NOTIONS

- Fabric
- Matching threads
- 2.5cm wide elastic (can be smaller)

BODY MEASUREMENTS

Please follow the chart below to see where your child would be the most comfortable in and do not hesitate to choose a size up so your little one has room to grow. Please focus on the hip measurement when choosing a size and remember to measure your child with a nappy on if not potty trained yet.

Size	0 to 6M	6 to 18M	18 to 36Y	3 to 5Y
Height	60 - 67 cm 23.5 - 26in	74 - 84cm 29 - 33in	89 - 97cm 35 - 38in	104 - 109cm 41 - 43in
Chest	43 - 46cm 17 - 18in	48 - 52cm 19 - 20.5in	53 - 55cm 21 - 21.5in	56 - 57cm 22 - 22.5in
Waist	43 - 45cm 17 - 17.5in	46 - 48cm 18 - 19in	50 - 51cm 19.5 - 20in	52 - 55cm 20.5 - 21.5in
Hip	45 - 46cm 17.5 - 18in	48 - 51cm 19 - 20in	53 - 56cm 21 - 22in	58 - 61cm 23 - 24in

PDF SEWING PATTERN

Please note: This pattern contains two files. A Print At Home file and a Copy Shop file. If using Adobe Acrobat Reader, you can choose to print only the size you need by selecting the corresponding layer.

The Copy Shop file can be printed at any printing store onto a large piece of paper. This specific file fit onto an A0 paper or US equivalent. Remember to measure the check square at the store before you go home to make sure your pattern has been printed correctly.

The Print At Home file can be printed at home with any standard printer true to size at scale 100% and orientation "Auto". It contains 16 pages that you need to assemble by cutting the margins and taping the pages together following the numbers indicated on each page. This file suits both A4 and US Letter printers.

If making the pants only, print pages 1 to 10. If making the shorts only, print page 1 and 6 then page 11 to 16.

Remember to measure the test square to ensure your pattern has been printed at the correct scale.

GLOSSARY

- Right and wrong side of the fabric: The right side is the side that shows on the outside of the garment and the wrong side will be on the inside. The following tutorial shows the wrong side of fabric in grey and the right side of fabric in white.
- Seam allowance: The distance between the line of stitching and the raw edge.

What is a French seam? (that the French call "English seam" by the way...)

A French seam is far more durable than other seams. It makes a garment less likely to tear at the seam and there is no risk of the fabric fraying. The cut edges are completely encased in an extra row of stitching. It also makes a garment look as attractive on the inside as it does on the outside.

To do a French seam on this pattern, you have to position and pin two pieces of fabric, **WRONG** sides together and sew them with a 0.7 cm (1/4in) seam allowance. This is the biggest difference between a French seam and a regular seam. Normally you would start with the **RIGHT** sides together.

Press the seam on the other side, which is the wrong side of fabric then enclose the seam and press. Sew with a 1 cm (3/8in) seam allowance to complete the french seam.

Now turn the garment inside out and press the seam open. On the right side of the fabric, it looks like any other seam but on the inside you have a beautiful enclosed French seam.
