Printing at 100%

When I make my pattern pieces I try to arrange them so they will print on A4 or US Letter. Any problems just let me know.

What ever program you use to print you need to choose the 'Custom Scale' button and set to 100%. This makes the test square exactly 1".

If it is only 7/8" then your program has used a default scale of 96%.

The easiest program to use is Adobe Reader.

You can select the instructions pages only and print them as a booklet. This fits in the envelope.

1. Requirements

Join the pattern pieces for the skirt back and front

You need approximately 38cm (15") of light woven fabric.

Optional belt 38cm (15") gross grain ribbon. 1cm (3/8") wide and a slide buckle to fit.

Small amount of light lining.

5 small sets of hook and loop velcro.

Use the bodice pieces to cut the bodice lining.

Diagrams of the lining pieces have cross hatching on them.

Keep your bodice pieces out for marking the darts.

Put a pin in each side seam edge of the skirt back until you overlock the back facing edges. You don't want to get the edges mixed up.

All seam allowances are 6mm (1/4") unless otherwise stated.

2. Darts

a) Fold the pattern pieces along the dart centre lines. Place the pattern piece in the correct position on the fabric wrong side and draw a line along the pattern fold.

b) Fold the fabric right sides together along central dart line. It is not perfectly perpendicular.

c) Mark the point of the dart with a pin
