

# Tutorial

## Stitches and colours

Use splitstitch, chainstitch and stemstitch. The stitches are explained on page 4.

The wing and the dots on the belly are coloured with metallic silver acrylic colour. The colour should not be too fluid or compact, a „joghurtconsis-

# Preview only!

If you are more an embroidery beginner, use normal white cotton thread instead.

# Artwork

H 17,5 x B 12 cm framesize

Set the printer to „real size“ or set the scaling to 100%.

## Print for other framesizes:

Mathematical formula to adapt the scaling for other framesizes

For this filigran seahorse i recommend no smaller Framesize!

# How to do the stitches

## Chainstitch

Stitch the needle near the first stitch in and let a little loop left. Then come up at position 2 and stitch in at position 4 nearby. Fix the loop

## Split stitch

Move the needle bottom up through the fabric in same distance like the stitch before. From up you stitch directly in the strand of the

## Stem stitch

Move the needle bottom up through the fabric in same distance like the stitch before. Then put the needle to the hole at the end of the
