

# Tutorial

## Stitches and colours

Use split stitch and satin stitch.  
The stitches are explained on page 4.

I used glow in the dark thread No. E940. It is not easy to handle, the ends often unravel.

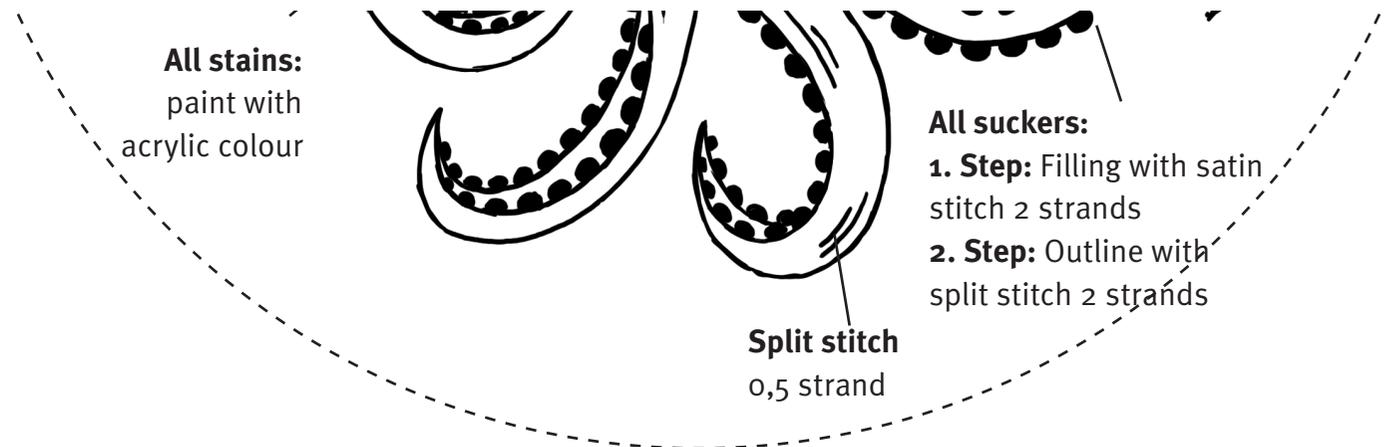

It has 12 strands. The tutorial refers to 6 strands, the smallest amount is therefor 0,5 strand. 0,5 is absolutely

# Preview only!

For the preparatory drawing use white trickmarker.

Please use thin cotton fabric, otherwise the artwork model will not shine through on the lighttable.

# Artwork

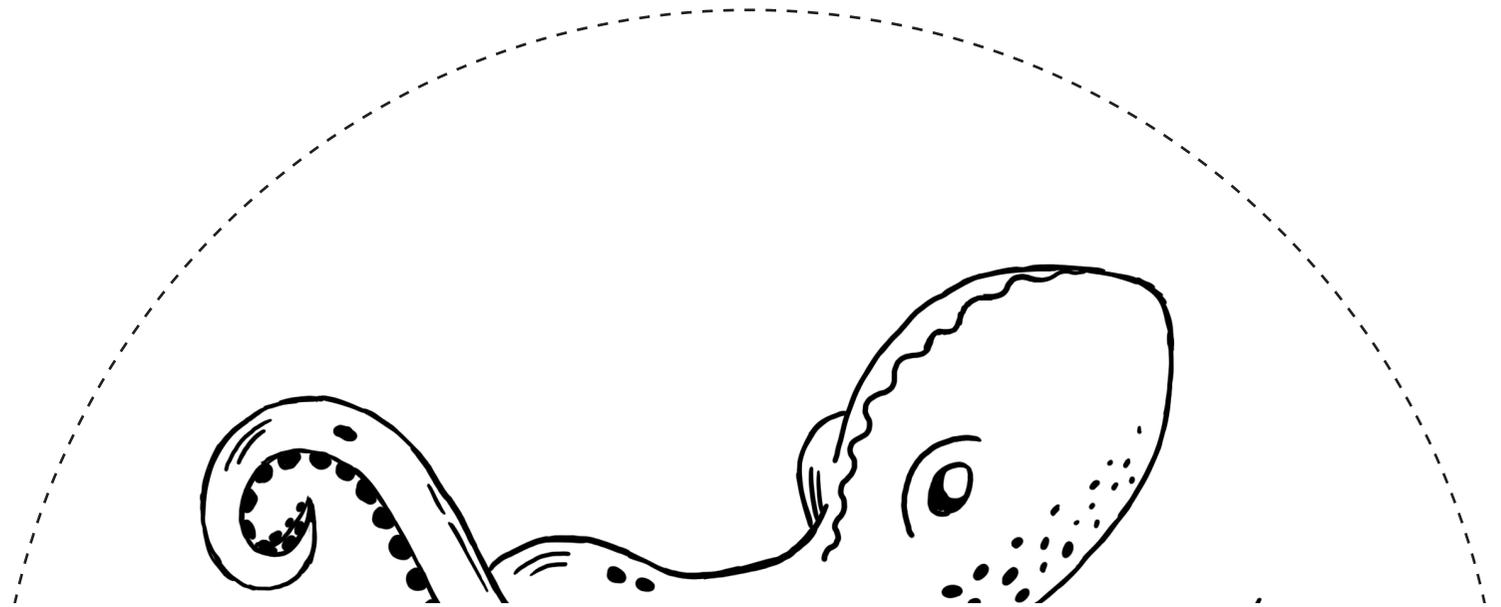

20 x 20 cm framesize

Set the printer to „real size“ or set the scaling to 100%.

## Print for other framesizes:

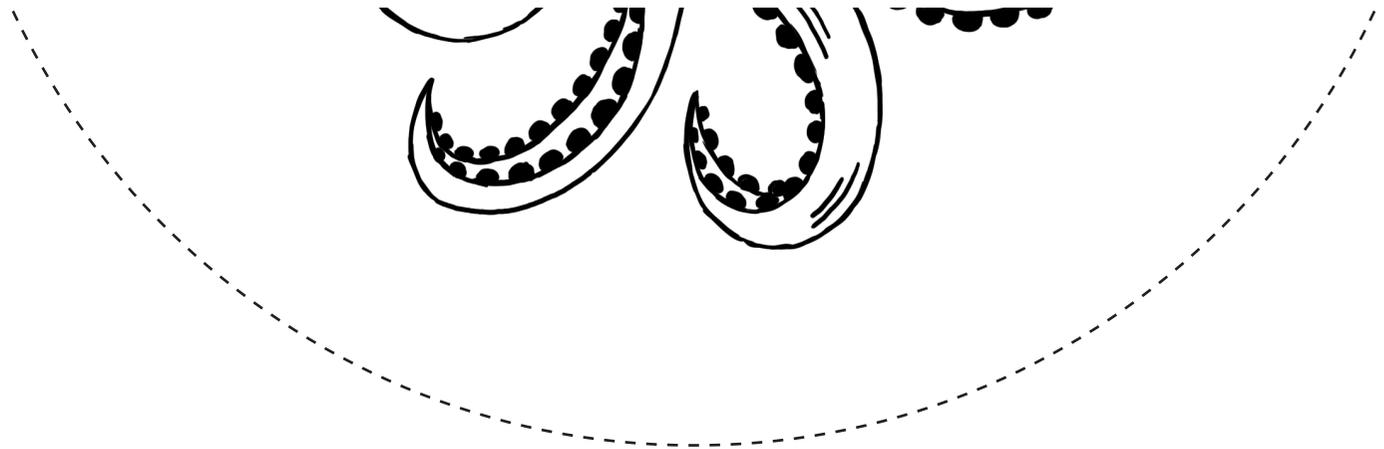

Mathematical formula to adapt the scaling for other framesizes

$100 : 20 \times \text{framesize} = X \%$

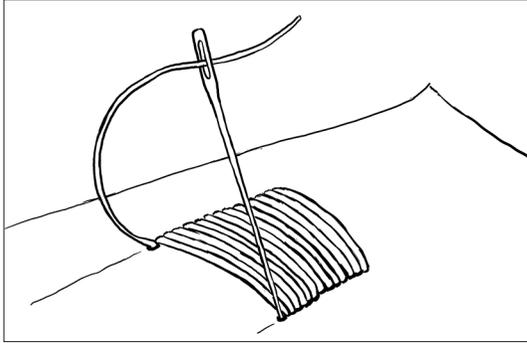

# Preview only!

For this detailed octopus I recommend  
no smaller framesize!

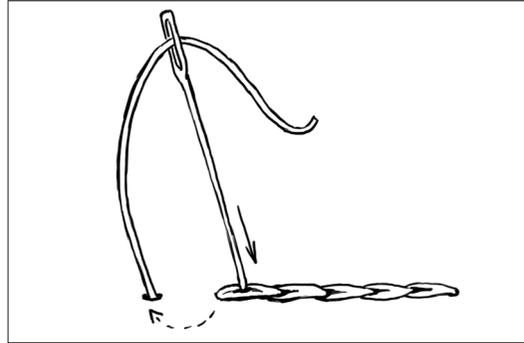

# How to do the stitches

## Satin stitch

Set the stitches close to each other for filling the space.

## Split stitch

Move the needle bottom up through the fabric in same distance like the stitch before. From up you stitch directly in the strand of the stitch before and split it with the needle
