

A Yarn of Serendipity

Head Over Heels Square

Today the phrase “head over heels” means to fall madly in love, but in the 14th century it literally meant to do a somersault. The first mention of love was made in 1883, and for anyone who’s been head over heels in love, it’s akin to a somersault; the world feels like it’s upside down, your head is spinning, and you know your life will never be the same. 🤍
